**Subject: REQUEST FOR EXTENSION OF TIME FOR SUBMITTAL OF WELL  
ABANDONMENT REPORT**  
ARCO Station No. 1992  
9454 Corbin Avenue  
Northridge, CA  
LARWQCB File No. 913240707A

Dear Mr. Bishop:

SECOR International Incorporated (SECOR), on behalf of Atlantic Richfield Company (Atlantic Richfield), is submitting this request for an extension of time for submittal of the Well Abandonment Report for ARCO Station No. 1992 (Site), located at 9454 Corbin Ave, Northridge, California. The Los Angeles Regional Water Quality Control Board requested the report be submitted by September 15, 2005 (Attached). Due to scheduling conflicts, SECOR is unable to have any field personnel on-Site within the time allotted to finish abandoning the remaining wells. SECOR personnel will begin abandoning the wells on August 1, 2005. SECOR therefore requests that the deadline for report submittal be extended to September 30, 2005.

If you have any questions regarding this site please do not hesitate to contact the undersigned at (805) 230-1266 ext. 237.

Sincerely,

SECOR International Incorporated

Andrew Modugno  
Senior Geologist  
Project Manager

## **UNDERGROUND STORAGE TANKS PROGRAM – CASE CLOSURE ARCO SERVICE STATION #1992 9454 CORBIN AVENUE, NORTHRIDGE, CA (FILE NO. 913240707A)**

Dear Mr. Vose:

This letter confirms the completion of a site investigation and corrective action for the underground storage tank(s) formerly located at the above-described location. Thank you for your cooperation throughout this investigation. Your willingness and promptness in responding to our inquiries concerning the former underground storage tank(s) are greatly appreciated.

Based on information in the above-referenced file and with the provision that the information provided to this agency was accurate and representative of site conditions, this agency finds that the site investigation and corrective action carried out at your underground tank(s) site is in compliance with the requirements of subdivision (a) and (b) of Section 25296.10 of the Health and Safety Code and with corrective action regulations adopted pursuant to Section 25299.3 of the Health and Safety Code and that ~~no further action~~ related to the petroleum release(s) at the site is required.

This notice is issued pursuant to subdivision (g) of Section 25296.10 of the Health and Safety Code.

Because the subject site currently contains active underground storage gasoline tanks, we recommend that you properly maintain all existing monitoring wells and/or vapor extraction wells onsite, so that they would be available should further monitoring is deemed necessary. However, if you choose to abandon these wells, you must comply with the following:

1. All wells must be properly located and abandoned.
2. Well abandonment permits and all other necessary permits must be obtained from the appropriate agencies prior to the start of work.
3. You must submit a report on the abandonment of the wells to this office by **February 25, 2005**. This report must include, at a minimum, a site map, a description of the well abandonment process, and copies of all signed permits.
